Estonian
Finnish
Serbian

Hobbies

Reading, Cycling, Tennis, Table
Tennis

Profile

Tech has always been fascinating to me. I began teaching myself to code as a hobby, hobby quickly turned into a passion, and I began researching methods in becoming a professional Web Developer as well as Software Developer.

Transitioning to coding from a non-tech field is probably one of the simplest and easiest decisions I've made in my life.

I'm a Full-Stack Developer specializing in JavaScript. However, I am a quick learner and always eager to learn new languages and technologies, willing to pick up all sorts of skills needed for the job. Enthusiast who enjoys solving complex problems.

Tech Stack: HTML, CSS, Sass, Bootstrap, JavaScript, React, Node.js, Python, Django, MySQL, SQLite

I am on continuous learning path as I seek out opportunities to grow as a developer.

Employment History

Punter, Punteam

2010 – 2020

Sports Journalist, Eurobasket

2012 – 2020

Education

Bachelor's Degree, University of Belgrade
